## **Corrections: The disagreeable behaviour of the kappa statistic**

Laura Flight and Steven A Julious

Ref: Pharmaceut Statist 2015, 14, 74-78

A number of typographic issues have been drawn to our attention which we would like to raise as an erratum. In Section 5.1 on p76 in the second column a value for  $\kappa=0.038$  should be 0.036 while  $P_e=0.360$  should be 0.670. In the same Section on p77 in the first column  $\kappa=0.189$  should be 0.199. While again in the same section on p77 in the second column  $\kappa=0.391$  should be 0.305
