Supplemental File: Topic guide for short interviews

Domain	Purpose	Question
Understanding of condition	To explore: <ul style="list-style-type: none"> • Identity • Cause • Timeline • Consequences 	Why do you think you come to the (dental) hospital? How do you explain to your friends about your dental visits? / Do you think your teeth are different to other people's? Do people ever make comments about your teeth? If so, what do you say? What do you think caused your missing teeth? What do you think will happen to your teeth in the future?
Understanding and beliefs about management	To explore: <ul style="list-style-type: none"> • The individual's role • The role of others • Who is involved in treatment • Treatment options • Impact of treatment • Potential barriers 	Do you think you can do anything about your teeth? Who do you see at the dental hospital? What do you think their job is? How do you think they can help? What do you like or dislike about having dental treatment? Why? Is there anything that would stop you being able to have treatment? Do you think what you do now will make a difference when you're older?
Decision-making	To explore: <ul style="list-style-type: none"> • People involved in decision making • Important factors • Involvement • Sources of information 	Who do you talk to about your teeth and dental treatment? What did you hope would be different at the end of treatment? Did you think about not having any treatment? Did anybody ask you what you wanted from treatment? Who or what helped you think about your dental treatment? Are you happy with your choice / is there anything you would change?
