Running title:

Neighbourhood greenspace and childhood obesity

Correspondence:

Meghann Mears, Department of Landscape Architecture, University of Sheffield, Floor 13, The Arts Tower, Western Bank, Sheffield, S10 2TN, United Kingdom
meghann.mears@sheffield.ac.uk

Conflicts of interest statement:

Dr. Mears, Dr. Brindley, Prof. Maheswaran and Prof. Jorgensen report grants from Natural Environment Research Council, Economic and Social Research Council, Biotechnology and Biological Sciences Research Council, Arts and Humanities Research Council, Department for Environment, Food and Rural Affairs, during the conduct of the study. Mr Baxter has nothing to disclose.

Acknowledgements

We are grateful to Andrew Beckerman for providing mathematical support. We thank Jie Qi, Will Allsworth and Luke Ferriday for their contributions to mapping greenspace access points. We also thank two anonymous reviewers, whose comments substantially improved the manuscript.

MM, PB, RM and AJ conceived of the study. IB provided the data. MM analysed and interpreted data and generated figures. All authors were involved in writing the paper and had final approval of the submitted version.

This work was supported by the Natural Environment Research Council, ESRC, BBSRC, AHRC & Defra [NE/N013565/1]. The funding sources had no involvement in the study design; collection, analysis and interpretation of data; writing of the report; or the decision to submit for publication.

Census data were sourced from the Office for National Statistics and are © Crown Copyright 2019.
