**Figure 2 Effect of Income on Participation, Lack of Deprivation, Social Participation and Trust (Twentieths)**

### 2a Participation

Note: In the Figure we plotted the effect of income on participation excluding the top income vigintile and controlling for: Gender, Age group, Employment Status, Education, Social Class, Benefits, Household Type, Ethnicity and Region.

Source: Understanding Society (2011, 2013).

### 2b Lack of Deprivation

Note: In the Figure we plotted the effect of income on lack of deprivation excluding the top income vigintile and controlling for: Gender, Age group, Employment Status, Education, Social Class, Benefits, Household Type, Ethnicity and Region.

Source: Understanding Society (2011, 2013).

## 2c Social Participation

Note: In the Figure we plotted the effect of income on social participation excluding the top income vigintile and controlling for: Gender, Age group, Employment Status, Education, Social Class, Benefits, Household Type, Ethnicity and Region.

Source: Understanding Society (2011, 2013).

## 2d Trust

Note:

The Plotted coefficients for people in benefit are not statistically significant.

In the Figure we plotted the effect of income on social participation excluding the top income vigintile and controlling for: Gender, Age group, Employment Status, Education, Social Class, Benefits, Household Type, Ethnicity and Region.

Source: Understanding Society (2011, 2013).

**Figure 3 Effect of Covariates other than Income on Participation (T-Standardised)**

### 3a Age

In the figure we plotted the effect of age on participation excluding the age bracket 65 and older and controlling for: Income, Gender, Employment Status, Education, Social Class, Household Type, Ethnicity, and Region.  
Source: Understanding Society (2011, 2013).

### 3b Employment Status

Note: the black column indicates an insignificant coefficient.

In the figure we plotted the effect of employment status on participation excluding Employed and controlling for: Income, Gender, Age Group, Education, Social Class, Household Type, Ethnicity, and Region.  
Source: Understanding Society (2011, 2013).

### 3c Education

In the figure we plotted the effect of education on participation excluding postgraduate and controlling for: Income, Gender, Age Group, Employment Status, Social Class, Household Type, Ethnicity, and Region.  
Source: Understanding Society (2011, 2013).

### 3d Class

Note: the black column indicates an insignificant coefficient.

In the figure we plotted the effect of Class on participation excluding Larger Employers and Higher Management and controlling for: Income, Gender, Age Group, Employment Status, Education, Household Type, Ethnicity, and Region.

Source: Understanding Society (2011, 2013).

### 3e Household Type

In the figure we plotted the effect of Family Type on participation excluding Couples without Children and controlling for: Income, Gender, Age Group, Employment Status, Education, Class, Ethnicity, and Region.

Source: Understanding Society (2011, 2013).

Note: the black column indicates an insignificant coefficient.

In the figure we plotted the effect of Region on participation excluding Greater London and controlling for: Income, Gender, Age Group, Employment Status, Education, Class, Household Type, and Region.

Source: Understanding Society (2011, 2013).

### 3g Ethnicity

In the figure we plotted the effect of Ethnicity on participation excluding White Group and controlling for: Income, Gender, Age Group, Employment Status, Education, Class, Household Type, and Region.  
Source: Understanding Society (2011, 2013).

**Figure 4 Income 6th Vigintile by Ethnic Group in % of the Overall Sample**
