Corrections: The disagreeable behaviour of the kappa statistic

Laura Flight and Steven A Julious

Ref: Pharmaceut Statist 2015, 14, 74-78

A number of typographic issues have been drawn to our attention which we would like to raise as an erratum. In Section 5.1 on p76 in the second column a value for $\kappa=0.038$ should be 0.036 while $P_e=0.360$ should be 0.670. In the same Section on p77 in the first column $\kappa=0.189$ should be 0.199. While again in the same section on p77 in the second column $\kappa=0.391$ should be 0.305
