Correction to: Transportation

<https://doi.org/10.1007/s11116-022-10287-8>

In the original publication: missing minus signs in Table 10 and incorrect minus sign in Table 11.

In the results in Table 10, all minus signs are missing, which means that some of the effects might seem to go in the opposite direction of what they should. Could you please correct this?

There is also one minus sign too many in Table 11.

The original article has been corrected.
