## Corrigendum: Enhancement of growth media for extreme iron limitation in *Escherichia coli*

James W. Southwell<sup>1</sup>, Keith S. Wilson<sup>2</sup>, Gavin H. Thomas<sup>3</sup> and Anne-Kathrin Duhme-Klair<sup>1,\*</sup>

*Access Microbiology* 2024;6, doi: 10.1099/acmi.0.000735.v4

---

An external reader and the author of the article 'A hybrid in silico/in-cell controller for microbial bioprocesses with process-model mismatch' contacted the Editorial Office suggesting possible mistake in the reference 34 in the published article. Authors confirm that the wrong article was cited as reference 34 by mistake.

The corrected reference 34 is:

**34. Soma Y, Tominaga S, Tokito K, Imaso Y, Naka K et al.** Trace impurities in sodium phosphate influences the physiological activity of *Escherichia coli* in M9 minimal medium. *Sci Rep* 2023; 13: <https://doi.org/10.1038/s41598-023-44526-4>

Previously, the reference 34 appeared as shown below:

**34. Ohkubo T, Soma Y, Sakumura Y, Hanai T, Kunida K.** A hybrid in silico/in-cell controller for microbial bioprocesses with process-model mismatch. *Sci Rep* 2023; 13:13608
